

Every-day Dyspepsia

In my article last Sunday I made the statement that there are a great many cases of catarrh of the stomach that are not recognized as such. I want to emphasize that statement nearly every case of so-called dyspepsia is in reality catarrh of the stomach. A great many cases of constipation are caused by catarrh of the stomach. A great many cases of that come under the general term of biliousness are catarrh of the stomach.

Thousands of Testimonials.

As stated in my article last Sunday, there is no class of cases that write me more frequently or more enthusiastically as to the benefits received from Pe-ru-na than this very class. I feel safe in saying that a greater number of people have been cured from catarrh of the stomach by taking Pe-ru-na than any other remedy in the world. This may be partly due to the fact that more people know about Pe-ru-na than any other remedy, but it is certainly also due to the fact that Pe-ru-na is an excellent remedy for such cases.

Write to Dr. Hartman.

Wherever it seems to fail a letter calling my attention to the matter is generally sufficient for me to be able to set it right. Even though Pe-ru-na be taken, the patient may be imprudent in his diet or habits and thus defeat the remedy. But under ordinary, reasonable circumstances Pe-ru-na may confidently be expected to render exactly the assistance that Nature needs in these cases.

Pe-ru-na, Man-a-lin and La-cu-pia, manufactured by the Pe-ru-na Company, Columbus, Ohio. Sold at all drug stores. No. 40.

HE MAKES GUARDS RUN

Prison Men Given Hard Test by Major Leonard.

Leavenworth, Kan., Jan. 24.—Major Henry Leonard, Attorney General Wickersham's personal investigator of the federal prison, who has been here two weeks, made it apparent today that he intended to investigate all guards and other employees as well as all departments. Every guard was taken to a cinder path outside the prison and made to "do" 300 yards as fast as they could run in an effort to determine their heart action. Many of the men who have grown old in service almost collapsed as a result of the strain, and they are anxiously awaiting the verdict of the Washington official.

WOMAN BURNS TO DEATH.

Blaze From Clothing Sets Fire to House and Orchard.

Salina, Kan., Jan. 24.—While lighting a fire in a gasoline stove last evening at her home six miles north of Sylvan Grove, the tank exploded and Mrs. John Scott's clothing caught fire, and she was fatally burned. Mrs. Scott was alone at the time, and neighbors saw her run from the kitchen door with her clothing in a blaze. She ran to the center of the orchard near the house and fell, where her body was found later. The fire in her clothing set fire to the dry grass in the orchard which started to burn, but was extinguished before the flames reached the prairie. The flames in the house were also extinguished before much damage had been done.

When the neighbors saw the fire a general telephone call was sent out along the rural line and farmers rushed to the rescue from every direction.

SATANTA TO BE JUNCTION.

Haskell County May Have Three Railroads Soon.

Satanta, Kan., Jan. 24.—Satanta, Haskell county, six months old, of less than 100 population, six months ago raw prairie land 40 miles from a railroad, now has bright hopes of being the junction of three lines in a short time. The Santa Fe has already completed its Colmer cutoff to this point and officially announced a branch west from here through Grant and Stanton counties. Now comes assurance to R. E. Coburn, secretary of the Commercial club—the baby town has a live club—from the M. K. & T. builder of the Wichita Falls & Northwestern, that this line, now completed to Forgan, Okla., just across the state

Recovered From Severe Lung Trouble

While we all know that plenty of fresh air and good food are necessary to persons suffering from lung trouble, something more is needed to bring about full health. Eckman's Alternative is a medicine for throat and lung troubles, and so many reports have been received showing that it brought about good results in a number of cases which were declared hopeless, that all sufferers who are not benefiting otherwise should at least investigate what it has done for others. It may be the means of restoring you to health. Investigate this case:—

"Gentlemen:—In December, 1908, and March, 1909, I was taken with hemorrhages of the lungs which confined me several weeks, each time to my bed. These left me very weak and I coughed at nights and could not sleep. My appetite also failed me. My doctor advised me to go west. So, in September, 1909, I planned to go, but I had four more hemorrhages, which put me in bed for three weeks.

"In November I started for Denver, Colo. After my arrival I met Michael Brody, who, upon learning of my condition, urged me to take Eckman's Alternative. In about two months I began to feel better. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I think I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 120 pounds. I now weigh 165, my normal weight. I thank God and your Alternative for my health. If I can help any other person suffering from Tuberculosis, I will gladly do so."

(Sworn Affidavit) PAUL L. PASNACHT, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. For sale by Geo. W. Stansfield, 622 Kansas ave., and other leading druggists. Ask for booklet telling of recoveries and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.—Adv.

line from Liberal, will be pushed on towards Denver through southwestern Kansas, via Liberal, Satanta, New Ulisses and Syracuse.

THIS HOG "DRESSED" 405 LBS.

Biggest Hog in History of Western Kansas Is Killed.

Santa Fe, Kan., Jan. 24.—George Derby butchered a hog on his ranch near here recently that weighed 405 pounds dressed. It was too large to get into a barrel to scald and a trench had to be dug. It is thought to be the largest hog ever butchered in southwestern Kansas.

CURTIS TO PRACTICE LAW.

President Has No Job That Would Suit Him as Well.

Washington, Jan. 24.—Interviewed as to the rumors that have been so persistent here to the effect that he is to receive a federal appointment, Senator Curtis said: "I know of no appointment that is within the power of the president to give me that I would consider for a moment. I intend to return to Topeka and resume the practice of law upon the expiration of my term of office here."

TRAIN KILLS TWO BOYS.

Third Brother Killed at Same Spot in 1907.

Newton, Kan., Jan. 24.—George and John, 10 and 12 respectively, sons of Fritz Witmer, were run over by Santa Fe train No. 2 here. One of the lads was fatally injured. They were driving a horse which they could not control and which dashed onto the track ahead of the engine. Another son was killed near the same spot five years ago jumping on a train.

PEACH BUDS ARE DEAD.

Bennington Fruit Grower Says Crop for This Year Is Gone.

Bennington, Kan., Jan. 24.—Daniel Miller, one of the most extensive fruit growers in the county, who lives five miles southwest of this city, says he has examined the peach buds very carefully and finds that the peach in this section were killed in the recent cold snap when the mercury reached 24 degrees below zero.

AN AGED PAIR ELOPE.

Joseph Bruna and Miss Rose Kaspar Wed, Aged 73.

Hanover, Kan., Jan. 24.—Joseph Bruna and Miss Rose Kaspar, each 73 years old, "eloped" to Odell, where they were married. A big reception is planned upon their return.

Flower That Bloom in the Spring. Cottonwood Falls, Kan., Jan. 24.—Bright, yellow dandelions in full bloom have been picked from fields here this week. The warm open weather of November and December caused dandelions and some of the hardier varieties of flowers to blossom, and through the recent cold wave they were pro-

MOTHER'S SACRIFICE COMPLETE.

Mrs. Cora Edwards Saves Life of Child, Dies.

Kansas City, Jan. 24.—Mrs. Cora Edwards, 22 years old, forgot her own danger when she saw the clothing of Ella, her 5-year-old daughter, burning and extinguished the flames that threatened the child, permitting a spark to gain headway until her own clothing was ablaze. She died after suffering since December 24. The child has recovered.

She was the wife of W. B. Edwards, 950 Munroe boulevard, Kansas City, Kan. She was baking a Christmas cake when the accident occurred.

Belpre Some Shipping Station.

Belpre, Kan., Jan. 24.—The report of Santa Fe Agent Selfridge shows that Belpre has been the best freight shipping point on the Hutchinson-Kinler cutoff during the past year. A total of 903 cars were shipped, including 524 cars of wheat, 105 cars of corn, 71 cars of hogs, 18 cars of cattle and 1 car of sheep. The wheat shipped totaled 600,000 bushels and would have made a train over four miles long.

OAKLAND-TOPEKA.

Councilman Clayton Presents Arguments for Consolidation.

H. V. Clayton, member of the city council of Oakland, has written an exhaustive and detailed article for the State Journal concerning Oakland tax levies. Oakland voters decide at a special election tomorrow whether or not they will become a part of Topeka. Mr. Clayton has answered the argument that, although last year the Oakland tax levy was one mill higher than Topeka's, such will not be the case in the future. Mr. Clayton declares that the school levy alone must be nine and one-half mills in 1913 in order to clear up outstanding indebtedness and meet current costs of at least \$6,200. Mr. Clayton says in his letter:

"One of the arguments used by the Oakland 'Home Guards' against the consolidation of Oakland with Topeka is that although the Oakland tax levy for the year 1912 was one mill higher than was Topeka's tax levy, such will not be the case in the future.

"Let us see whether or not there is anything substantial to that argument. In the first place, what is the present bonded indebtedness of the Oakland school district? About July 1, 1911, there were issued by that district \$12,000 worth of fifteen year 5 per cent. bonds in payment of \$300 each. In 1911 and again in 1912 the county commissioners made a one mill levy on the Oakland school district to pay the interest on said bonds for the years ending July 1, 1912, and July 1, 1913, and left a small balance each year to go into a sinking fund eventually used in paying off the majority of said bonds when they become due in 1926. The assessed valuation of the property in the Oakland school district for the two years past has been slightly over one million dollars each year—several thousand dollars less in 1912. The assessed valuation of one million dollars will only bring in \$1,000 if all taxes are paid. So from the two years' levies that have so far been made toward the payment of interest and principal on the Oakland school bonds, the Oakland school district—including the yet unpaid balance of the 1912 tax levy which will be mostly paid next July—will only have received approximately \$2,000 all told. The interest on \$12,000 worth of bonds at 5 per cent. a year amounts to \$600 per year, or \$1,200 for the two years. Subtract the \$1,200 interest payment—which must be paid each year as it becomes due—from the \$2,000 received, and you will have left the magnificent sum of \$800 to be used toward paying off another bond out of the 1913 levy. Looks somewhat like the county commissioners will have to raise the Oakland school bond levy about one-half mill if those bonds are all to be paid off when due. It may mean another half mill addition on the 1913 total levy. How

does that sound to you?

"What were the conditions of the Oakland school district finances on January 1, 1913—outside the bond matters? Well, the facts are they had about \$6,000 worth of school district warrants outstanding, most of which were stamped 'not paid for want of funds' and drawing interest at a rate of six per cent per year, amounting to \$360. Now, according to the published statements of the present clerk of the Oakland school district, it costs about \$680 per school month to run the nine grades in the Oakland schools, or \$6,200 for a school year of nine months. Add the sum of \$5,000—which amount one of the high privates of the Home Guards says was the entire outstanding general indebtedness of the Oakland school district on July 1, 1912, and also add at least \$500 for interest on those outstanding warrants, and you have a total of \$11,500 for the total liabilities of the Oakland school district for the current school year. Now you know the Oakland school levy for 1912 was nine mills and the total assessed valuation approximately one million dollars. That means about \$9,000 income from that source for the current school year. Add to that amount about \$700 which the district may expect to receive from the state and county school funds, and you have a total income for the Oakland school of \$9,700 against total liabilities for the year of about \$11,500. Looks somewhat like a deficit of about \$1,800 to be paid out of the 1913 levy.

"With a deficit of some \$1,800 and costs of at least \$6,200 to run the school for a school year, and about \$100 interest to pay on the deficit, the 1913 Oakland school levy will have to be about nine and one-half mills in order to clear up all outstanding indebted-

ness and run the schools for that year.

Does that look like a decrease in school taxes in Oakland for the year 1913? No. "How about the Oakland city and the Topeka township tax levies being lower for 1913 than for 1912? They are not liable to be as neither levy can be lowered in 1913 and the city and township come out in the clear at the end

of the year. Last year the city of Oakland had a deficit of about \$700 at the end of the year.

"Yes, Oakland taxpayer, you will have to pay as high a tax levy next year as you did last, and still have your poll-tax to pay for extra measure, unless tomorrow's election results in consolidation with Topeka."

TIME IT! ANY SOUR, GASSY, UPSET STOMACH CURED IN FIVE MINUTES

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia, when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes such misery vanish in five minutes. If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, than take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions on sales annually.—Adv.
